PROJECT PROPOSAL
(2019-20)

ON

NON-PROFIT FOUNDATION WEBSITE

By

VANSHIKA SHIVANI (171500373)
VAISHALI JAIN (171500370)

Under the supervision of
Mr. Pankaj Kumar

Department of Computer Engineering and Application
IET, GLA University-Mathura

ABOUT THE PROJECT

This project is a charity foundation social welfare website for under-privileged people which include donations in various aspects and funding for education, treatments, homes etc. It contains donations
for children all over the world facing bad conditions.

This project is a whole website containing home and contact in all pages that are interlinked with each other.

In the process, I taught myself to write easy-to-maintain CSS and HTML, and figured out how to configure a web server.

Requirements

a) **<u>Hardware:</u>**
- External Hard Drives or DVDs for Backup
- Minimum 2GB RAM

b) **<u>Software:</u>**
- Brackets

Technologies Used

- HTML 5
- CSS 3
- Bootstrap
- JavaScript
- JQuery
